

SIMON ADAM

STUDENT

ABOUT ME

I approach my work responsibly and even though I sometimes have small hiccups over procrastination I truly do care about giving it my all for the best results possible. I was always taught that whatever one does - he should, with this attitude, be able to see the difference and most importantly achieve his goals. And I do strive to stand by this mentality, wherever I may be.

Crew coach - guaranteeing good restaurant operation, teaching new employees and having responsibility for them

Leader guest care - caring for guests and addressing their needs, ensuring calm environment in the restaurant

Barista - having responsibility for the cafe and it's maintenance

SKILLS & INTERESTS

My skills

I am experienced with the Microsoft Windows, MacOS, Linux (Fedora, Mint and Ubuntu) operating systems. I would also like to state that I have experience with programming in the following languages: C Sharp, JavaScript, TypeScript and in both the HTML and CSS markup languages. I furthermore posses the ability to use programs such as Photoshop, Illustrator, Adobe XD, Premiere Pro, After Effect, AutoCAD, Autodesk Inventor, Figma. Lastly, I would like to state that I am owner of the Cisco IT Essentials.

My interests

My hobbies include video games and fitness. As time goes by I have acquired interest in programming and managment. Especially about brand companies and it's influence on the public, for I aspire to found my own company and introduce my own brand to the market in the future.
